- The indicated dosage is per 10 liters of water. Use nutrients with every watering.
- The quoted EC values include the EC value of the tap water at 0.4 mS/cm.  
Attention: the maximum EC value of the nutrient water must be less than 3.0 mS/cm!
- All stated doses are indications and depend on the condition of the plant.

This Grow Schedule is designed for different types of flower and fruit bearing plants, starting with a young plant like a rooted cutting or a week- old seedling.  
The duration of the mentioned periods is depending on the type of plant.
